

Poll Results from AMS10 Committee Meeting

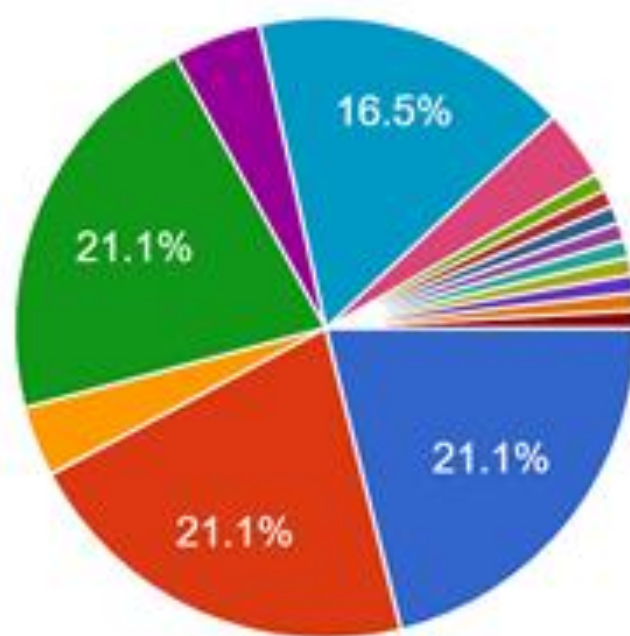

2021 Transportation Research Board Annual Meeting

Key Findings

- The Google form had fairly good agreement with the early poll that Christy ran
 - Federal, state, and academic participation was the highest and amazingly equally distributed
 - Had a healthy number of consultants as well as some local government, MPO, and nonprofit engagement
- A majority of today's attendees were members or friends of the committee, but $\sim 1/4$ were still unaffiliated (n=26)
 - Hopefully some of them will become friends through myTRB, as suggested in the form and Zoom chat
- No specific question to identify as a student
 - However, $\sim 1/3$ of participants (n=32) marked themselves as young professionals (35 years old or younger)

Current Professional Role

109 responses

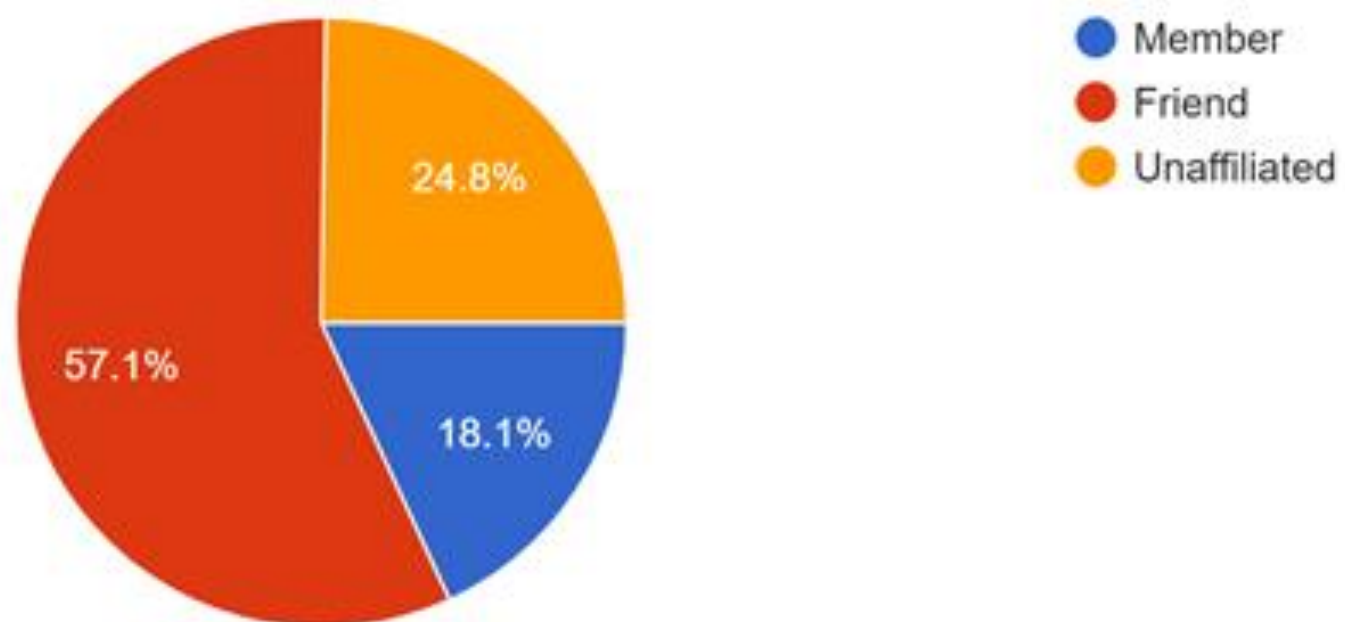

- Federal agency
- State agency
- Local agency
- Academic institution
- Non-profit organization
- Consulting firm
- MPO
- Research Engineer at Ford Motor Co...
